Simple Menu

For Clubs that offer a limited menu at the turn, keep it simple by putting high revenue items that require prep time on the Visage menu. Items such as soda, water, peanuts and energy bars can be added to the order when the guest arrives for pick up.

The screenshot shows a mobile application interface for a 'Food & Beverage Menu'. The menu is displayed on a dark background with a light-colored header. The header includes the title 'Food & Beverage Menu' and two navigation buttons: 'Return to Golf' (with a golf course icon) and 'Main Menu' (with a house icon). The menu items are listed in a vertical list, each with a small image of the item, the item name, the price, and an 'Add to Order' button. The items are: Hamburger (\$5.85), Cheeseburger (\$6.50), Chicken Sandwich (\$8.00), and BLT (\$6.00). To the right of the menu items, there is a section titled 'My Order:' which currently shows a 'Total' of '\$0.00'.

Item	Price	Action
Hamburger	\$5.85	Add to Order
Cheeseburger	\$6.50	Add to Order
Chicken Sandwich	\$8.00	Add to Order
BLT	\$6.00	Add to Order

Elaborate Menu

For Clubs that want to provide a more elaborate menu for members and guests, the ability to create easy to navigate groups of items, such as “Sandwiches and Wraps” coupled with the ability to add options, also known as modifiers, to the selected items such as “lettuce, mayo, mustard, hollandaise, etc.” is one more way Visage can set your Club apart from the rest.
